Portfolio

## Summary

Front-end Developer specialized in building modern, responsive web interfaces using React, Next.js, and Tailwind CSS. Self-taught since April 2024 with practical experience developing real-world projects published on GitHub. Focused on clean UI, performance optimization, and delivering user-friendly experiences with semantic HTML and scalable CSS.

## Experience

### Freelance

**March 8**

Freelance Front-end Developer

Sale, Morocco

<https://uxfiver.vercel.app/>

**Elevate Your Website with AI-Powered UX Optimization** Unlock insights into user behavior, pinpoint design flaws, and leverage AI-driven enhancements for a seamless, high-converting experience.

This version maintains the essence of your original message but makes it more concise and action-driven. You might also want to highlight key benefits (like increased engagement, conversions, or accessibility) in supporting sections.

Do you have a visual concept in mind for the layout? A strong hero section with an engaging CTA could make a big impact.

### Personal Projects

**March 17**

Self-taught Front-end Developer

Sale, Morocco

<https://weather-app-navy-sigma-78.vercel.app/>

**Weather App:** Created a weather application using Next.js and Tailwind CSS, fetching real-time data through a public weather API. Focused on responsive design and providing a seamless user experience.

### Personal Projects

**April 21**

Self-taught Front-end Developer

Sale, Morocco

<https://spark-ideas.vercel.app/>

**Landing Page: Unleash Creativity in Seconds** Fuel your content strategy with AI-powered inspiration. Instantly generate fresh ideas for articles, videos, and beyond—tailored to your unique vision.

This version sharpens the message and makes it feel even more action-oriented. You could enhance the page with a **bold hero section**, an interactive demo, and testimonials to build trust.

## Education

### High school or spring

**July 10**

Science

Full-time

Score

With an emphasis on scientific studies.Currently maintaining a GPA of 9.2, with strong performance in subjects related to mathematics, physics and chemistry. Passionate about applying analytical skills and problem solving techniques to web development.
