PROFIL

Frontend Developer specialized in React, Next.js and TypeScript. I build high-performance landing pages and modern web interfaces focused on speed, SEO, user experience and conversions. Recently delivered a production-ready website for a local gym, handling the entire process from development to deployment with a custom domain.

EXPERIENCE

Freelance Frontend Developer

- Built modern landing pages using React, Next.js and TypeScript.
- Developed responsive interfaces with Tailwind CSS.
- Optimized performance, technical SEO and user experience.
- Deployed production-ready websites on Vercel with custom domains.
